## Objective

To gain a position that utilizes the skills gained in my undergraduate studies and challenges me to learn new skills.

## Education

University of the Arts, Philadelphia, Pa - BFA Photography, Minor in Multimedia  
While at University of the Arts I studied Photography and Web Design as well as some basic programming. The two programming languages I learned were Actionscript and Processing. As a side project I am also exploring using Arduino to create an interactive MIDI controller. As part of my senior year I had a gallery exhibition at Skybox Gallery in 2424 Studios in Philadelphia.

### Glasgow School of Art, Glasgow, Scotland - Study Abroad - 2009

I spent six months studying in Glasgow, while there I took classes on Photography, Multimedia, and a course on the DIY culture and its influences on the Arts. I also had a gallery exhibition while in Glasgow at Newbury Gallery

## Experience

Studio Assistant, Jack Ramsdale Photography; Philadelphia, Pa. 2007 - Current  
On top of my general studio assistant tasks I helped to maintain stable working computer systems as well as building and repairing computers from scratch. Other tasks included making copies of boot drives to replace old outdated drives and setting up a Network Access Storage System.

### Lab Monitor, University of the Arts; Philadelphia, Pa. 2006 -Current

I opened and maintained computer labs for students to work in. Helped to troubleshoot issues relating to computer hardware and software and any issues related to printing.

## Skills

Good communication skills, enjoys working with other people, able to problem solve to find a solution that accomplishes every necessary goal

Knowledge of computer hardware and computer repair as well as Windows and Mac OSX software

Flash, Processing, HTML, CSS, Javascript (novice), PHP (novice), Photoshop, Lightroom, Illustrator, InDesign, Digital Medium Format, Darkroom Processes
